

Title:

**How today's trends in the healthcare system are shaping tomorrow's
Continuing Medical Education: Findings from a Canadian Environmental
Scan**

Conference:

Canadian Conference on Medical Education - 2013

Author(s):

Sean Hayes, AXDEV Group Inc.

Patrice Lazure, AXDEV Group Inc.

Janie Hubert, Abbott Canada

Objectives:

This presentation will detail key emerging trends in the Canadian healthcare system – and their influence on the CME/CHE environment – identified through a national environmental scan.

Key Points:

Changes in the healthcare system have direct impact on the CME field (as well as on undergraduate and graduate medical education). Thus, it is essential for medical education specialists to remain abreast of any trend that appear in the healthcare system.
